Next Wednesday the ladies of the Church of the Assumption will give a dance at the old Catholic church. An Interesting time is accorded.

Interesting time is expected.

Last Friday Mrs. McMillan of Main street, went out in the evening and left a lamp burning in the room where her children were sleeping. When she returned she found the lamp had expected the children were nearly suffer. ploded, the children were nearly suffocated and shortly the house would have been on fire.

The streets of this village got such a tremendous drenching with oil a few weeks ago it is not likely any more will be put, on the roads this year. It goes without saying that the roads are in good condition right in the heart of the town, but there is plenty of room for improvement on the pike leading to Southport. This road, for the want of proper attention, is worn into deep ruts, and the cobblestones are cropping up.

The quick results surprised me, and I can honestly recommend them." F. B. Brill and Curtis Pharmacy, local agents.

Another Grange meeting is to be held next Wednesday evening. The reason why the Grange does not prosper is because the residents of the village are not farmers, and therefore hot deeply interested in how to fatten pigs, prune trees, or plant potatoes.

There is a startling report that an attempt was recently made on Riverside avenue to hold up a young man. There was a request for money followed by fiat blows. All parties escaped.

A trolley car recently slid down the rails on Stafe street, much to the consternation of the women passengers. It is said the power was weak and the wheels lost their grip.

CITIZEN OBJECTS TO OSLERIZATION

Republican Leaders Have no Use for Man Whose Hair is Gray.

Editor of the Farmer, Sir:—Let me say at the start, that I have been a consistent Republican since 1880, having joined the wide awakes, an organization which stirred up the patroitism of the whole nation as it was never stirred before, I am now a Republican national and statewise, but the conclusion has been forced upon me and others, that locally, it is time for self preservation, for those who have passed the prime of life and find themselves dependent upon their labor for a living, to try to better their condition if possible, with the leading for a living, to try to better their con-dition if possible, with the leading Republicans (with some exception) the sentiment seems to be, that after a man has reached a certain age, no matter how faithful he may have been to his party locally, he must be Oslerized when old age clutches at his vitals no matter her clear and active WESTPORT

This great advance in the prices of the necessaries of life is not due to unnatural causes, or scarcity of supply, but solely to the private ownership, by the few, of the means of life. All of these products are controlled by the trust—that is, by the few individuals who regulate prices on a basis that consumes all you get in wages. wages.

Some day the workingmen of this country will become tired of living on the good old promises that are given out promiscuously before each elec-tion. The "Grand Old Party" of fortion. The "Grand Old Party" of former days has wantonly gone on record as guilty of perjury—promised to revise the tariff downward in favor of the workingmen, but revised the tariff upward so that the trusts could the quicker rob the poor. Speaking about tuberculosis, (it used to be called "consumption" in the good old days when our grandfather's cured it with mullein tea) the workingmen can never get rid of tuberculosis until they get rid of the Glory Old Parasites that drain their life-blood. Tuberculosis is a poverty disease—in fact about all crime and disease is caused by poverty crime and disease is caused by poverty—abolish the cause and effect a cure. There is no penny-in-the-slot machine that will cure tuberculosis—better save your money for milk and eggs-all doc-tors recommend milk and eggs for tuberculosis-but they don't provide the milk and eggs nor the money to buy them. Ninety per cent. of the voters of this country are working-men. The workingmen can have better conditions any time they care to vote for better conditions. They have the power any time they get ready to use it—a golden opportunity is theirs.

Now is the accepted time. Do it now.

Using the eyes upon the colums of figures is harder upon the eyes than reading. Every figure has to be considered separately, while in reading we take in whole words at a glance. Watching the keys of a typewriter is a severe strain upon the eyes. If your eyes tire at work, or if you are subject to headaches,a pair of glasses, such as we fit, to use at your work will do you worlds of good. They will help you to work all day without tiring.
